- Maximum temperature is expected to be around 32° - 35°C and minimum temperature is expected to be around 26° - 33° C.

Agrometeorological Advisory

| Crop | Stage | Advisory |
|--------------------------|---------------------------|--|
| Kharif Rice | Panicle initiation | Maintain 5 cm water table and apply 4.5 kg Urea per Bigha as second top dressing at the time of panicle initiation. At that time, mix the fertilizer thoroughly with soil. There is a chance of attack of BPH in the prevailing weather condition. If the number of insect is more than 15 per plant, apply 0.75 ml Dichlorvos or Carbaril 1.5 ml per litre of water at lower portion of the stem. |
| Okra | General | Under present hot and humid situation attack of white fly has been reported from many areas leading to the spread of yellow mosaic virus. Spray Difenthiuron @ 0.75g per litre of water to prevent the further spread of the disease. |
| Winter Vegetables | General | Sow seeds of winter vegetables. Cultivate radish, broccoli, cabbage, cauliflower etc. Sow onion seed in the nursery bed. |
