*Weather Forecast for North 24 Pgs. District*  
FORECAST PERIOD: 22<sup>nd</sup> November to 26<sup>th</sup> November, 2017

**Weather forecast for next five days**

- Clear sky during next 5 days is expected.
- No rainfall during next 5 days is expected.
- Wind flow mainly from North West direction with 7-9 km/hr. speed during next 5 days is expected.
- Maximum relative humidity is expected to be around 55% - 71% and minimum relative humidity is expected to be around 32% - 41%.
- Maximum temperature is expected to be around 29° - 30°C and minimum temperature is expected to be around 17° - 19° C.

**Agrometeorological Advisory**

<b>Crop</b>	<b>Stage</b>	<b>Advisory</b>
<b>Winter Vegetable</b>	<b>Seedling</b>	Seedlings are very much vulnerable to rotting due to disease infestation which can be mitigated by applying, Hexaconazole 5% WP+ Captan 70% WP@ 1.5 gm per lt of water.
<b>Pointed Gourd</b>	<b>General</b>	For new season planting before transplanting vine should be dipped into a solution of 3 gm of Carbendazib and Mancozeb mixture with one litre water for some time and thereafter keep it in a shade area for sometime before planting. Another thing farmer's friend should apply 5-7 gm Cabofuran to each pit.
