Horticulture(Varieties)	Horticulture Specific Advisory
BRINJAL	To control Brinjal fruit & shoot borer , firstly destroy infected fruit & shoot part. Spinosad or Cartap Hydrochloride may be applied .

Live Stock Specific Advisory:

Live Stock(Varieties)	Live Stock Specific Advisory
COW	Foot and Mouth disease is very common in the rainy season. To avoid this, keep the shed clean and dry and disinfect the shed with bleaching power. Feed them only dry food. Do not allow them to graze in submerged field. Farmers are advised to vaccinate livestock against foot and mouth disease (FMD vaccination), black quarter disease (BC vaccination) etc. Provide adequate quantity of vitamin and mineral mixture with the cattle feed to enhance milk production and improvement of cattle health.
